

TOM DOSSMAN

FULL STACK DEVELOPER

ABOUT ME

I am a Full Stack Developer blending my passion for art and technology to create aesthetically attractive and robust web applications with Angular, React, Node.js, and Typescript. My work is driven by a commitment to delivering clean, maintainable code and working collaboratively to achieve team goals.

HARD SKILLS

- HTML, CSS, JavaScript
- Typescript
- Angular, React
- UI/UX Design (Figma)
- Bootstrap
- RESTful APIs
- Postman
- Node
- Express
- ORMs
- Debugging
- Version Control (Git)
- ChatGPT, Claude
- Googling

SOFT SKILLS

- Communication
- Collaboration
- Problem Solving
- Attention to detail
- Committed to growth

EDUCATION

University of Pennsylvania

Certificate, Full Stack Development

SEPT 2023 - MARCH 2024

Penn State University

Bachelor of Integrated Arts

Minors in Business & Music Tech

AUG 2010 - DEC 2015

EXPERIENCE

AllianceTek Inc

JUNE 2024 - PRESENT

Intern

- Generate dynamic, responsive web applications using Angular, React, JavaScript, and TypeScript, delivering modern, engaging components and seamless interfaces.
- Configure RESTful APIs with Node.js, optimizing data exchange and improving frontend-backend communication.
- Administer secure authentication and authorization using tools like JWT, enhancing application security.
- Utilize AI tools, documentation, and forums to efficiently solve development challenges, accelerating delivery timelines and improving code quality.

PROJECTS

ActivateMe - Activity Tracker App

MARCH 2024

UI/UX Designer, Frontend Developer

github.com/Dossman-thomas/ActivateMe

- Assembled a fluid, intuitive frontend using React, leveraging the Bootstrap CSS framework to ensure a polished visual experience.
- Collaborated with the backend team to design and implement strategies for effectively rendering critical data from a MongoDB database, facilitating accuracy and performance.

DailyDevDose - Tech Blog Site

JAN 2024

Full Stack Developer

github.com/Dossman-thomas/CMS-style-blog-site/

- Outlined and constructed a full-stack blog site from the ground up, showcasing proficiency in building dynamic web applications.
- Produced a streamlined interface with Handlebars.js, HTML, CSS, and JavaScript, enabling users to easily view, create, edit, and delete blog posts and comments.
- Harnessed Sequelize to successfully manage user accounts, blog content, and comments while maintaining data consistency.
